

CAMBRIDGE AUDIO PRODUCT PRICE LIST 2018/19

## Rediscover Music With Edge

In the build-up to our 50th anniversary, we asked engineers a simple question – what would they make if anything was possible?

Forget cost. Forget limitations. Create a system that delivers previously undiscovered layers of detail, is highly transparent, offering superlative sound-staging. A product true to Cambridge Audio's foundations of creative innovation and entrepreneurial ambition.

Over 3 years in the making, utilising a team of 9 engineers, the result is Edge.

# CX Series

## CUTTING EDGE DIGITAL HI-FI

The CX Series has been designed for the digital age. This highly versatile range of hi-fi separates was built to excel, getting the very best from your digital audio sources.

CX looks as good as it sounds. It's distinct 'floating' aesthetic gives each unit a sleek look, which stands impressively on its own or creates a cohesive, striking appearance when stacked. In addition, the low resonance chassis have been designed to enhance sonic performance.

The system is best-in-class and the recipient of multiple awards and accolades, including seven What Hi-Fi? Awards across the range. Each of the units shine individually but create a truly exciting audio experience when working in unison.

# Azur 851 Series

## OUTSTANDING AUDIO PERFORMANCE

Our award-winning 851 series of hi-fi components is designed without compromise. Built to be the very best at what they do, they'll give you a new perspective on your favourite music.

Audiophile-grade internal components have been used throughout the range, which have undergone thousands of hours of testing, and the signal paths have been optimised helping produced a pure, natural sound.

Designed to be the heart of your hi-fi system, the 851 series offers a wealth of connections, getting the best from analogue or digital audio. 851 provides reference standard hi-fi.

# Topaz Series

## ENTRY LEVEL HI-FI RANGE

The Topaz Series is the perfect setup for the curious looking to invest in their first stack of hi-fi separates.

Building your first component system can be an overwhelming process due to the sheer number of options out there, which is why we made the Topaz series straightforward and with Sound First design principles.

The Topaz series is a great place to start and is guaranteed to change the way you listen to music forever.

Your quest for quality audio starts here.

# TV Sound

## CINEMATIC SOUND EXPERIENCE

TV's as thin as a sheet of glass look the part but don't sound it. Our sound bars and sound bases will improve your TV's sound unrecognisably. Neat designs, easy to set up, easy to use, and a joy to listen to.

Choose from either our all-in-one sound-bases or our soundbar and subwoofer pair for an immersive cinema experience, right in your home.

All our TV Sound products are discreet in their design blending seamlessly with your home cinema set up, adding nothing but great sound.

TV5 v2	TV Sound Base With Bluetooth	Black	€ 399
TVB2 v2	TV Sound Bar & Subwoofer With Bluetooth	Black	€ 499

# Yoyo

## BLUETOOTH SPEAKERS DESIGNED BY HI-FI ENGINEERS

Imagine if you could get Heston Blumenthal to make your lunch. You'd be the envy of the break room. If Thomas Heatherwick designed your garden shed, your neighbours would be jealously peering over your fence. Imagine if hi-fi engineers made your Bluetooth speaker.

Yoyo is a range of Bluetooth speakers designed with the craftsmanship, passion for sound and technical expertise that only a Hi-Fi engineer can deliver.

The result is a series of products with an audio quality that defies expectations. From the diminutive Yoyo (S), through the surprising stereo separation of (M), to the power and presence of (L), each unit in the series delivers beautiful sound.

Each unit has been lovingly finished with wool from Yorkshire weavers, Marton Mills. This means the final products deliver 'British Sound' in British style.

**YOYO (S)**  
PORTABLE BLUETOOTH  
SPEAKER

**YOYO (M)**  
PORTABLE STEREO  
BLUETOOTH SPEAKER

**YOYO (L)**

YoYo M	Cambridge Audio YoYo Medium Portable Music Player	Blue, Dark & Light Grey	€ 349
YoYo L	Cambridge Audio YoYo Large Music Player	Dark & Light Grey	€ 399

# Minx Series

## ULTRA COMPACT SPEAKERS

The Minx series redefines what's possible from speakers this size.

Each unit is discrete in both stature and design, yet they all produce the huge sound that's normally only associated with much larger, traditional box speakers.

The Minx range is comprised of 4 different models: two satellite speakers, Min 12 and Min 22, and two subwoofers, X201 and X301. Each of the products work together harmoniously so you can pick a

combination that suits your space, whether 2.1 or 5.1, and will sound perfectly matched.

Minx's stunning sound is accompanied by a premium finish. Choose from white or black high-gloss lacquers, using paint application techniques mastered in the premium car industry. Easy to clean and hard to scratch – Minx will look as good as it sounds for many years to come.

**MIN12**  
BOOKSHELF  
SPEAKERS

**MIN22**  
BOOKSHELF  
SPEAKERS

**X201**

# Speakers

## LOUDSPEAKERS FOR ALL ROOMS

Our flagship speakers, Aeromax 2 and Aeromax 6 use BMR® (Balanced Mode Radiator) drivers. Using the BMR shifts the crossover point between tweeter and woofer away from the usual 3kHz, right at the middle of the human ear's most sensitive hearing range, to a less problematic 250Hz. The result is a more natural, immersive and coherent sound.

The 4th generation BMR® driver construction also delivers a more room-filling sound by using horizontal vibration modes for a much wider sound. This makes them ideal for modern homes and room layouts where speakers might not end up placed optimally for traditional stereo. You can place the Aeromax 2 and Aeromax 6 where you want and still get great stereo and surround effects.

Aeromax cone drivers and subwoofers are specifically designed to complement the BMR® drivers - producing cinematic, immersive sound with sumptuous and accurate bass.

This same BMR technology can also be found in the Aero series speakers, designed for a premium home cinema audio experience.
